

WORKING WIDTH	Up to 500 mm(Optional wider)
FUNCTION	Flameadhesiveness, simplebilayer
SPEED	Up to 80Mts/min,depending on materials.
DRIVES	Servomotorized and full control of the parameters Laminated with a 10" operator display
ELECTRICAL POWER	2Kw 400/460v 50/60Hz.
POWER OF BURNERS	One unit adjustable power5-26Kwand uniform temperature.
ENTRY SYSTEM	Bar with stops, no traction.
CERTIFICATION	EU Certificate, documentation and machine safety. ENAC control certificate on burners and gas control.
SIZE	Length=1800mm x Width=1500mm x Height=2100mm.
WEIGHT	1.150 KG.

**It can be used for for the continuous production of simple laminated with up to 500mm width.**

-Conditioning machine and re-circulation cooler laminated machine.
