

WORKING WIDTH	Up to 2,500mm (Optional wider)
FUNCTION	Sharpening the edge of the finished laminated to the desired width.
SPEED	UPTO 80Mts/min, depending on materials
CUTTING SYSTEM	Blade and motorized counter-blade with motor drive.
DRIVES	Servomotor-driven cutting width position.
ELECTRICAL POWER	2Kw 400/460v 50/60Hz.
CERTIFICATION	EU Certificate, documentation and machine safety.
SIZE	Width 3342mm, Length 1446mm, Height 1900mm
PESO	345 KG.

It can be complemented by additional units to obtain a lamination line of high-volume production of controlled quality.

- Marking system of fabrics by inkjet printing.
- System of extraction of cut strips.
- System of shredded cut strips.
